WELCOME

Innovation and quality is at the heart of everything we do. Our product range is manufactured using the most up to date manufacturing techniques, which ensure that our customers get the next generation in windows and doors.

The Arcadia Composite Door collection offers home owners a door composed of quality, durable and thermally efficient materials.

Added to that is a range of traditional and contemporary doors styles, unique and handcrafted glass designs, and genuine grain-effect colour finishes.

Enhance your home with a strong, secure and stylish Arcadia Composite Door.

STRENGTH & DURABILITY

STRENGTH & DURABILITY

Arcadia Composite Doors are available as 44mm single or 70mm double rebated doors, ensuring there is an option available to suit all applications.

Advanced manufacturing techniques ensure that all Arcadia Composite Doors are extremely robust, durable and long lasting. Door leaves are backed by a 10 year performance guarantee.

DOOR MATERIALS

Arcadia Composite Doors are constructed from high density CFC-free polyurethane foam and layers of laminated veneered lumber and finished with GRP (glass-reinforced polyester) inner and outer skins.

DOOR FEATURES

Available in 44mm or 70mm door leaf thickness, Arcadia Composite Doors are extremely durable and robust. For extra safety, the door glazing units may be toughened or laminated.

DOOR FRAMES

Composite door leaves are fitted to our high performance Inliten 70mm PVCu door frames. Inliten frames are backed by an exclusive 10 year product performance guarantee.

DOOR PERFORMANCE

All components of the composite door are designed for enhanced durability, including: weather-resistant polymer materials, advanced hardware systems and high performance glazing units.

SECURITY

Door shown is a 70mm double rebate.

SECURITY

Keeping your home safe and secure is of paramount importance, which is why all Arcadia Composite Doors are designed for enhanced security.

Only the toughest materials are used to form our door leaves, making the doors virtually impact resistant.

All doors feature multi-point locking mechanisms and hardware as standard, and are fitted to ultra-strong Inliten door frames.

SECURITY STANDARDS

Arcadia Composite Doors are tested to the stringent standard, PAS 24. A range of additional security options are also available which meet the specifications required by 'Secured by Design'.

DOOR HARDWARE

Composite doors are fitted with advanced locking systems, strong hinges and quality handles as standard. All components are specially selected to ensure maximum, long term performance.

HOOK LOCKS

For extra security, a hook lock option is available. 'Hooks' are situated at the top and bottom of the locking system and slot firmly and securely into keeps located on the door frame.

ADJUSTABLE HINGES

To further enhance the security of your door, we use a range of adjustable hinges, offering enhanced strength and security, whilst still maintaining the aesthetic appeal of the door.

**ENERGY
EFFICIENCY**

ENERGY EFFICIENCY

Arcadia Composite Doors are designed for maximum thermal insulation, ensuring energy is retained inside the home.

All doors and glazing units within the Arcadia Composite collection offer excellent energy efficiency properties; helping you save on home heating bills and reducing carbon emissions.

DOOR U-VALUES

Our range of glazed composite doors achieve a U-value of 1.6 W/m²K. If you select a solid/un glazed door style, U-values as low as 0.9 W/m²K can be achieved.

GLAZING UNITS

A range of double and triple glazed units are available, featuring high performance coated glass. All glazing units offer excellent thermal insulation, weather resistance and noise reduction.

HEAT LOSS

The image on the left shows an Arcadia Composite Door, the blue areas indicating lower heat loss. Compare this to the image on the right of a timber door, red areas indicating a high rate of heat loss.

ENVIRONMENTAL

Arcadia Composite Doors help reduce harmful carbon emissions. In fact, our doors achieve a 'Global Warming Potential' score of less than five, and an 'Ozone Depletion Potential' score of zero,

CHOICE

CHOICE

The Arcadia Composite Door range is designed for high aesthetic appeal. Doors feature a genuine grain-effect finish, giving the appearance of a traditional timber door whilst delivering the benefits of modern materials.

Personalise your door with a colour of your choice, including contemporary RAL colour options, or a bespoke, handcrafted decorative glass design.

COLOUR CHOICE

Choose from one of our popular door colour finishes such as warm oak or sleek black, or choose from our extensive range of RAL spray painted finishes.

DECORATIVE GLASS

Each decorative glass unit is handcrafted in our in-house glass studio and includes a range of bevel, lead, resin and sandblast designs. We also offer a range of textured and obscure glass options.

GLAZING OPTIONS

Door glazing units are available with double (24mm) or triple (50mm) glazing. For extra thermal performance, decorative designs in triple glazed units are fitted to the middle pane.

DOOR THRESHOLDS

Composite doors are available with standard PVCu thresholds or a 'Stormguard' low threshold for excellent weather protection.

DOOR STYLES

DOOR STYLES

Arcadia Composite Doors are available as single or double rebate doors.

There is a choice of over 16 different styles from traditional cottage style doors to modern contemporary styles.

Matching sidelight glass is available on the Classic glass range (not available with Deluxe glass range).

GLAZED DOORS

The Arcadia Composite collection features a range of glazed door styles, from dual glass panels (New York) to arched glazed options (Rio, Moscow).

SOLID DOORS

A range of solid, unglazed door style options are available (*Boston, London*), suitable for a range of applications.

COTTAGE STYLE

Featuring a 'tongue and groove' effect, cottage style doors are available in a range of classic (*Oxford*) and modern (*Seattle*) door styles.

LETTERBOX

Letterboxes are fitted centrally on solid and glazed door styles as standard (except Lisbon – no letterbox option). On cottage styles, the letterbox can be fitted centrally or at the bottom depending on style.

NEW YORK

WHAT'S AVAILABLE?

Door Options:
44mm Single Rebate
70mm Double Rebate

Glazing Options:
24mm Double / 50mm Triple

**See specific glass styles listed overleaf for glazing unit size options. All deluxe glass as shown with no option for different backing glass.*

NEW YORK STYLE

Our most popular door style, complementing both traditional and modern house types. With two dual glazed panels, the New York can be personalised with a range of stylish and decorative glass designs.

TECHNICAL INFORMATION

Door Leaf	CFC-free Polyurethane Foam, layers of timber with impact-resistant Glass Reinforced Polyester (GRP) external and internal skins. Single and double rebated door leaves are available (see 'What's available?' section on individual style pages). Single rebated doors = 44mm thickness. Double rebated doors = 70mm thickness. Double rebate available on all styles except codes LB and BS. Please check double rebate stock prior to ordering. Min/max door size information on pg 43.
Door Leaf Colours	Please select inside and outside colours for the door leaf (standard will be white inside and coloured outside unless stated). Standard colours: White, Cream, Red, Blue, Green, Oak, Rosewood & Black (brown/black also known as 'Bog Oak', to match Inliten black frame). Spray-painted RAL colours also available: Jet Black (9005), Graphite Black (9011) Charcoal Grey (7016), Silver Grey (7001) and Chartwell Green (BS14C35). Other spray painted colours available - please check RAL codes with Camden before ordering.
PVCu Frame	Inliten PVCu 70mm system with steel reinforcement. Doors will be mounted on a white frame unless stated. Door frames colours are available to match door colour range: Oak, Rosewood, Black, Cream, Red, Blue, Green, Charcoal, Silver Grey or another RAL colour of your choosing. NB: frame colours may not be exact match to door leaf.
Locking	Cylinder locking system fitted as standard. High-security, anti-snap cylinder lockings also available at an extra charge. Locking systems designed to meet the requirements of PAS 24 and Secured by Design (laminated glass must also be selected to achieve this).
Handles	Lever/lever handles fitted as standard. Lever/pad and thumb-turn options also available. White handles fitted on white doors as standard. Specify handle colour on coloured doors. Available in white, black, gold or silver. Bar handles available on selected cottage door styles (please check handle sizes prior to ordering) - NB: glazing unit may be fitted in a different position and longer turnarounds/surcharges may apply.
Hinges	Butt hinges on single rebated doors and flag hinges on double rebated doors. White hinges as standard on white frames. For coloured frames, please choose hinge colour: white, silver or gold. Black hinge option only available with double rebated doors.
Door Furniture	Letterboxes available in white, black, silver and gold. Urn knockers (with/without peephole) are available in black, silver or gold. Scroll and Lion knockers available in black or gold only. Numerals and chains may also be supplied as a non-fitted accessory.
Glazing	Glazing unit is 24mm on single rebated doors and 50mm on double rebated doors. Double and triple glazing options available - refer to notes under door styles for glazing size information, some designs not available with double rebated door. Range of textured glass options also available. Georgian Bar available in White, Cream, Oak, Black and Rosewood.
Backing Glass	Backing glass for glazing units are available on most styles except codes featuring CL, EL, SP, PR, DC, CR, CS & RM.
Sidelights	Sidelight glass designs will be based on your chosen door glass design and at the discretion of the manufacturer. Custom designs may be available (extra charges/longer turnaround times may apply). To order place the code "SD" in front of your chosen door/glass code. NB: Matching sidelights not available with codes featuring CL, EL, SP, PR, DC, CR, CS & RM
Threshold	76mm PVC threshold as standard, 50mm & 60mm also available. Stormguard thresholds available as optional extra.
Guarantee	10 year guarantee on door leaves, 15 years on PVCu frames and 1 year on ironmongery. Composite doors meets all the stringent British Standard tests compliant with Parts L and M of Building Regulations.
Ordering Information	Step 1 - Select door style ie: New York, Step 2 - Select door leaf colour (specify inside and outside colours), Step 3 - Select glass design, Step 4 - Select backing glass, Step 5 - Select door frame colour, Step 6 - Select door furniture, Step 7 - Select sidelights (if required)

Extra surcharges & turnarounds may apply for any non-standard elements.

Every effort has been made to accurately reproduce the colours of the door and glass designs featured in the brochure, however, due to printing constraints some colours may vary from the product supplied.
