Secure, stylish and durable; panel doors are the most popular choice for all new build properties and replacement projects.

With a vast range of styles and decorative finishes available, panel doors are designed to complement all house types.

Panel doors offer high security, excellent weather performance and energy efficiency, whilst still maintaining a high visual appeal.

## 28mm & 40mm Panels

Inliten panel doors are available with a 28mm or 40mm panel size, ensuring the doors are suitable for both new build and replacement projects. Panels are also available in full or half style options.

## 15 Year Guarantee

Inliten products offer only the highest standards in quality and performance. We are pleased to offer an exclusive 15 year guarantee on all white and foiled PVCu doors and panels.

## Energy Efficiency

All panels and glazing units in the Inliten door collection offer excellent energy efficiency properties; helping to eliminate heat loss from the home, and saving you money on home heating bills.

## Enhanced Security

Panels are extremely strong, secure and durable by design. All Inliten doors are fitted with high performance locking systems as standard; keeping your home safe and secure.

## Styles & Finishes

Doors are manufactured to specific size requirements. Panels are available as full and half styles, with a range of classic and modern designs, decorative glass options and colour finishes.

## Performance & Maintenance

Only the toughest materials are used to form the Inliten panel door, ensuring that your door will retain its shape and form, will not rot or warp, and will require only the minimal amount of maintenance.

# Door Features

Choosing the right entrance door for your home is an important decision.

Inliten panel doors are designed to provide maximum security, weather-resistance and energy efficiency, whilst still maintaining style, quality and performance.

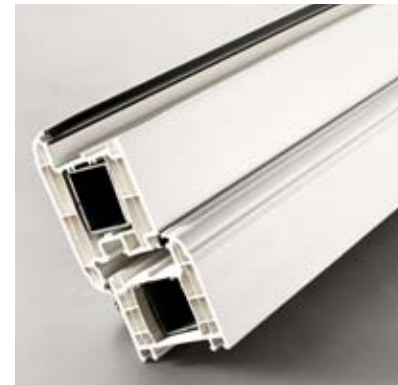

## Door Materials

Constructed from compact styrofoam, layers of solid MDF, and PVCu inner and outer skins, Inliten panels offer excellent levels of strength, durability and energy performance.

## Strength & Security

Available with a 28mm or 40mm panel thickness, Inliten panel doors are extremely strong, durable and robust. Glass can be toughened or laminated for extra security.

## High Performance Frames

Panels are fitted to our secure, durable and sustainable Inliten sash and outer-frames, and feature a sculptured profile finish. Inliten frames are backed by a 15 year product performance guarantee.

## Door Thresholds

Panel doors are available with a range of threshold options including: PVCu, low/flush options for disabled access, and high performance aluminium for enhanced weather protection.

## Door Furniture

All doors are fitted with high performance furniture and hardware as standard. All door components offer long-term performance whilst still maintaining the door's aesthetic appeal.

## Energy Efficiency

The core materials of the panel are bonded and moulded together, ensuring only the highest levels of heat insulation. For maximum energy performance, select a 40mm panel and triple glazed unit.

## High Security Locking

Keeping your home safe and secure is of utmost importance; that is why all Inliten panel door locking systems are designed for maximum security and feature multi-point locking mechanisms.

## Advanced Locking

For enhanced security, select a hook lock option. Hooks are situated at the top and bottom of the locking system and slot firmly into keeps located on the door frame.

## Flag Hinges

Doors feature high performance flag hinges to further improve the security and durability of the door. The hinge is adjustable, offers ease of use, with a high visual appeal.

## Weather Performance

Panel doors offer excellent weather performance properties as standard. Weather-resistant PVCu outer skins and rain deflectors help protect your home during harsh weather conditions.

## Double & Triple Glazing

High performance double and triple glazing offers excellent insulation and noise reduction. Decorative designs in triple glazing are fitted to the middle pane, concealing them from the outer elements.

## Finish & Appearance

Panel skins may feature an authentic grain-effect finish or a smooth, flush finish. A range of colour options and decorative glass options are available to personalise your door.

# Door Finishes

## Colour Options

Choose from one of our popular panel colour finishes, from traditional oak to contemporary charcoal. Door frames are available to match your door colour selection. In addition to white, the panel colour range includes:

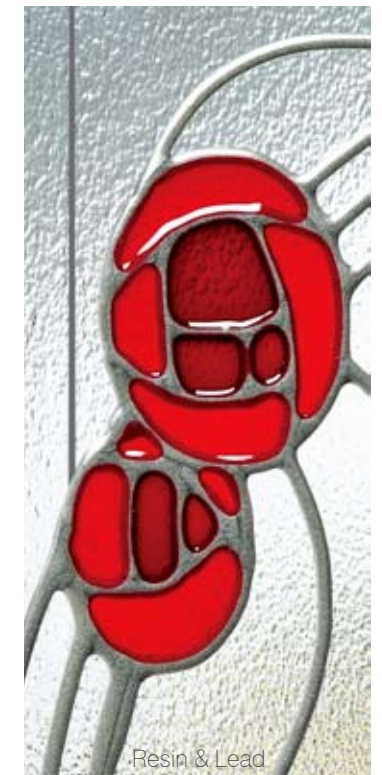

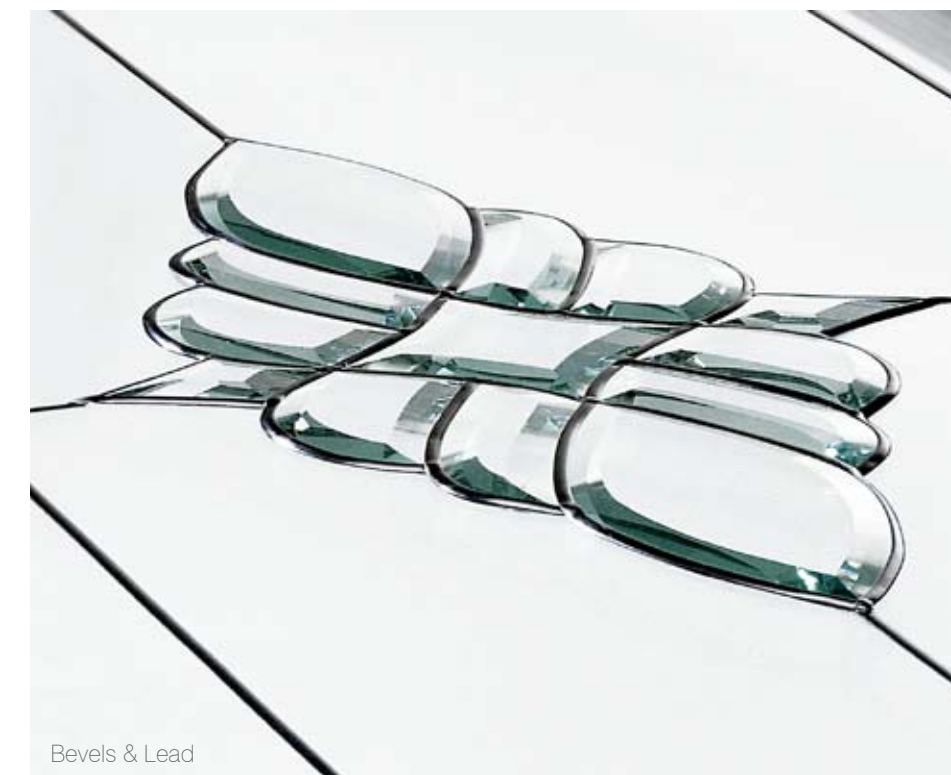

Inliten panel doors feature a range of traditional and contemporary door styles, suitable for all house types. Personalise your door with an authentic colour finish and stylish decorative glass option.

## Glass Options

Each decorative glass unit is handcrafted at our in-house glass studio and includes a range of intricate designs featuring bevels, tiles, lead, coloured resin and sandblast designs. Decorative glass options are available with both double and triple glazed applications.

In addition to clear glass, we also offer a range of textured/obscure glass options which are designed to enhance the privacy and security of your home. The textured range includes:

 Personalise the top section of your half panel door with a mullion and decorative glass option - please see pg 28

Inliten Panel Doors: [Half Panels](#)

Half panel options allow for a larger glazing area and are ideal if you require extra light into the home.

Half panels are suitable for back door applications, giving extended views over the garden or surrounding area. Or if you require extra privacy and security, select a textured glass option - see page 7.

# Additional Panel Options

## Sidelights

To further enhance the aesthetic appeal of your panel door, single and double sidelight options are available.

Sidelights may feature a full glass pane, or a half pane/half panel combination.

Select from a decorative glass design or a textured/obscure glass option. We also offer a range of sidelight panel options designed to match your chosen door panel.

*Please refer to panel options on page 24 and glass options on page 28.*

## Stable Doors

Designed for convenience, versatility and aesthetic appeal; stable doors are ideal for new build homes or replacement projects, adding extra character to all house types.

Stable doors feature multi-opening facilities: with a glazed top opening and a solid panel bottom opening. These sections can be opened as separate facilities and independent of one another, or alternatively can be opened as a complete unit.

Stable doors may feature a glazing unit or panel/glass unit in the top half of the door, and a solid panel in the bottom half of the door. Alternatively the top section may also be fitted with an Inliten Tilt & Turn Window.

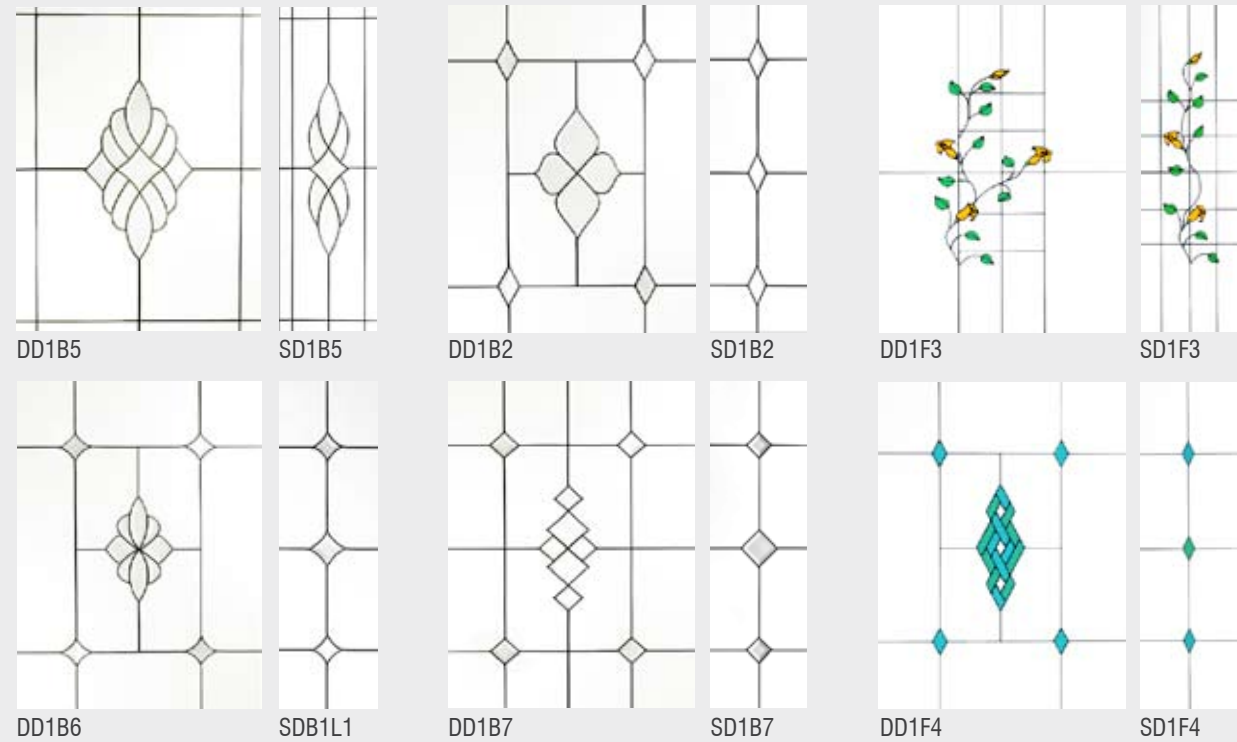

*Please refer to half panel options on page 24.*
